Welcome to **Future of Mobility**

Future Mobility Thailand 2025 (FMT 2025) is Thailand's inaugural event dedicated to showcasing the latest advancements in automotive and mobility technologies. Under the theme "Driving Tomorrow: Innovating for a Sustainable and Connected Future," this event serves as a global platform for collaboration, innovation, and progress as well as to connect with international partners to shape the future of mobility.

As ASEAN's largest automotive manufacturing hub, Thailand is at the forefront of this revolution. FMT 2025 showcases the country's commitment to leading the charge in green mobility, advanced manufacturing and cross-industry innovation.

Why Attend?

- **Cutting-Edge Technology:** Explore groundbreaking solutions in modern mobility, ADAS, green materials, and smart mobility system.
- **Sustainability Focus:** Join the movement towards eco-friendly and energy-efficient transportation solutions.
- **Business Opportunities:** Forge partnerships with international automakers, suppliers, and technology providers. Gain direct access to supply chains of Tier 1-2 manufacturers and unlock investment opportunities in Thailand's thriving automotive sector.

Be part of this transformative journey as we drive innovation for a cleaner, smarter, and more connected future. Together, we can elevate Thailand's automotive industry to new heights.

What Awaits You at FMT 2025

Exhibition Zones: Explore five specialized zones featuring the latest in automotive innovation:

• **E-Mobility Revolution Zone:** Batteries, electric motors, and smart drive train systems.

• **ADAS & Smart Mobility Zone:** AI-driven sensors, LiDAR, radar systems.

• **Green Materials Zone:** Eco-friendly composites and lightweight materials.

• **Performance Parts Zone:** High-performance accessories and aftermarket solutions.

• **Cross-Industry Applications Zone:** Innovations for aerospace, railways, agriculture, and more.

Keynote Speakers:

Learn from industry leaders like:

◆ **H.E. Mr. Akanat Promphan,**
Minister of Industry

◆ **Mr. Narit Therdsteeerasukdi,**
Secretary-General of the Board of Investment (BOI)

Facilitate partnerships between Thai parts manufacturers and global investors, providing direct access to supply chains of major automakers and Tier 1-2 technology providers.

Special Activities

April 3 2025

14:00 HRS.

Business Matching

- Automotive Manufacturers
& Parts Manufacturers

- Networking Area -

14:00 – 16:00 HRS.

Special Seminar

**Stand, Save, Build: Elevating Thailand's
Automotive & Parts Industry**

- Special Keynote Speech: Stand, Save,
Build – Thailand's Automotive & Parts Industry

By H.E. Akanat Promphan, Minister of Industry

- Stand, Save, Build: Leveraging BOI Incentives to
Transform Thailand's Auto Parts Industry

By Mr. Narit Therdsteerasukdi,
Secretary General of Thailand Board
of Investment (BOI)

- GH 203 -

SCAN FOR REGISTER

April 4 2025

11:00 HRS.

Joint Venture Matching Event

- Companies Seeking Investment in Thailand

- Networking Area -

14:00 – 16:00 HRS.

Smart Factories in the Digital Era: Driving Sustainable
Growth in the Auto-Parts Industry (Presented in Thai; foreign
speaker will have interpreters)

1) Presentations

• **Smart Factory:** Application of suitable technologies for
organizations, presented by **Mr. Theerayuth Boontharak** Assistant
Managing Director, G.I.F. Engineering Co., Ltd.
